Integrated care for total health

Dental care can play a vital role in your employees' overall health

Did you know that Kaiser Permanente members who have both medical and dental coverage weigh less, smoke less, and visit the hospital and emergency department less often than members with just medical coverage?¹ And healthier employees can support and improve your business productivity while helping you manage costs.

Convenience of integrated care

Your employees can experience a new way to take care of their overall health when they have Kaiser Permanente medical and dental coverage. Help them save time and enjoy the convenience of integration with:

- **Coordinated care**, like getting a flu shot, vaccination, or other preventive medical services during their dental appointment²
- **One electronic health record** and access to kp.org to help manage care
- **New virtual dentistry options**, like email, phone appointments, and care advice from our dental team — all with no copay and integrated with your employees' health record³

Administrative ease

When it comes to managing your plan, hassles should be the last thing on any business's mind. With coordinated dental care and coverage from the same company, we can streamline plan administration with:

- One point of contact
- One phone number to call
- One bill

All of which helps make it quicker and easier for you to stay focused.

Learn more at kp.org/dental/nw.

¹Kaiser Permanente Center for Health Research, Comparison of HEDIS Outcomes Among Dental/ Medical vs. Medical Only Population, 2013. ²Medical services are available at select dental locations. You must be a Kaiser Permanente medical member to receive medical care. ³When appropriate and available.

Every Kaiser Permanente plan is designed to help keep your workforce happy, healthy, and productive. Along with our variety of plan options, you can also include out-of-area coverage, comprehensive dental coverage, and more. See our plan overviews below to learn more.

Traditional plans

These plans offer predictable copays and out-of-pocket maximums and make it easier for employees to manage their health care spending. A variety of copay options gives you flexibility to choose a plan that meets employee needs and business goals.

Deductible plans

You'll get more options at an affordable cost. With the addition of an employee deductible and out-of-pocket cost, monthly payments are lower than for traditional plans. You'll reduce premiums while still maintaining quality care and access to our doctors for your employees.

HSA-qualified high deductible health plans

Offer lower premiums than other plan types, plus tax savings.* With our HSA-qualified high deductible health plans, your employees have more control over their health care dollars, helpful online decision-support tools, and the same high-value access to services as members of our traditional plans.

KP Plus plans

KP Plus offers comprehensive care from Kaiser Permanente doctors and facilities as well as affiliated providers. Plus, employees will have the option to see any licensed out-of-network provider for a limited number of services each year.

Added Choice point-of-service plans

Added Choice offers in-area and out-of-area employees provider choice while offering you the benefits of single carrier administration and health care cost containment.

*The tax references relate to federal income tax only. Consult with your financial or tax adviser for information about state income tax laws.

Added Choice out-of-area plans

An indemnity coverage solution for employees who live or work outside the Kaiser Permanente service area. It provides first-dollar coverage for doctor's office visits and no-cost preventive care delivered by any participating provider.

Standard plans

Standard plans are designed by the state of Oregon and cover only essential health benefits.* These plans have the same benefits from one company to the next so consumers can compare like plans across carriers that offer qualified health plans to small employers.

Kaiser Permanente Senior Advantage plan

Provide your Medicare-eligible employees with the benefits of Medicare Advantage.

Dental plans

Choose from our cost-effective Traditional plans or flexible Choice PPO plans. We have a range of options with comprehensive coverage to meet the needs of your employees. Our unique medical-dental integration helps improve care quality, improve patient safety, and increase member satisfaction. See our Dental Product Portfolio for information on our dental plans.

Our Voluntary plans give individual employees in your company the opportunity to enjoy a high-quality dental plan. Employees pay up to 100% of the premium through payroll deduction and can access quality dental care.

*These plans may not be sold with additional coverage such as adult vision hardware and eye exam and massage. Only medically necessary eye exams are covered. These plans exclude the following benefits: Dependent Out of Area and Fertility Diagnosis.

The right plan for your business

You have the ability to customize a medical plan with vision or vision and massage benefit options, based on your company's needs and budget. Follow the 3 easy steps to choose a health plan that's right for your business.

Step 1: Choose your medical plan or plans

You can offer up to 3 medical plans in a bundle, with the following guidelines:

- Limited to 1 Added Choice plan per bundle
- For groups that qualify, Added Choice out-of-area plans are not counted toward the 3-plan limit
- Once you select your plan offerings, employees choose the plan that best meets their needs

Step 2: Choose your optional buy-up coverage

All our medical plans, with the exception of the Oregon Standard plans, can be paired with the following buy-up options when purchased directly through Kaiser Permanente:

A. Vision: Adult vision hardware \$200 benefit/2-year period with adult vision exam (primary care office visit cost share applies).

B. Vision + Massage: Bundle option A and receive \$25 massage therapy (limit 12 per year). Cost shares are after deductible for all high deductible health plans. Massage on the 7100/0% HSA plan will be 0% after deductible is met. Added Choice plans: \$25 select providers, 20% coinsurance PPO providers, 40% nonparticipating providers. Added Choice out-of-area plans: \$25 select providers, \$25 PPO providers, 40% nonparticipating providers.

Step 3: Apply or renew your coverage

New groups: Wired Quote/Wired Enroll are the fastest, most secure ways to apply for coverage for small groups with Kaiser Permanente Northwest. Wired Quote/Wired Enroll are available to KP appointed brokers/producers at no cost. Learn more at wiredenroll.com. You can also complete the Small Business employer application, along with other required forms, and submit it to a Kaiser Permanente sales executive. Applications are due by the **20th of the month** prior to the effective date.

Renewing groups: Please indicate your selection on the Renewal Decision Form and return it to your Kaiser Permanente account manager no later than the **15th of the month** prior to your anniversary date. We will provide you with coverage options that best match the plan or plans your business offers today, but you can choose from any of our other plans available to small employers if you prefer.

Solutions for employers and choice for employees

Select up to 3 medical plans to offer your employees. There is a limit of one point-of-service plan per bundle (with the exception of an out-of-area plan). As an employer, your contribution for each plan will be the same. It must be at least 50% – but not more than 100% – of the lowest-cost plan.

Each of your employees can choose the plan in the bundle that best meets their needs. If employees select a higher-cost plan, they will pay the difference.

Small businesses in Oregon must also meet the minimum criteria to qualify for the tax credit, available on Oregon.gov.

The right mix of choice, care, and convenience

We believe that every small business deserves convenient and high-quality care. We offer a mix of cost-sharing options to help you to pick a plan that hits the sweet spot between growing your business and protecting your employees' health. Our traditional plans have no deductible and offer predictable cost shares and out-of-pocket maximums to help manage health care spending.

We also make it easier for your employees to access the care they need to keep them happy, healthy, and productive on the job. Whether choosing a medical office near their home or close to their workplace, members can find a wide range of services such as specialty appointments, lab tests, and X-ray services, often in one time-saving location. And thanks to our integrated care approach, every visit gets coordinated efficiently among doctors, lab personnel, specialists, and other medical staff.

Specialty care that's made especially for your needs

With one of the largest multispecialty medical groups in the country, we're able to conveniently connect your employees to the kind of care that's right for them. Our doctors work with our members and the specialist to create an individualized treatment plan that's backed by research. That means your employees get the right care, at the right time. Plus, our skilled doctors and specialists come fully equipped with the latest technology and innovative treatment methods for cancer care, heart problems, maternity care, orthopedic procedures, and more.

Our deductible plans let employees access a broad range of primary care, specialty care, and hospital services. In fact, many preventive services are covered in full without the need to satisfy a deductible. And because all our plans have an out-of-pocket maximum, employees know both their health and financial security are being protected.

What is an annual deductible?

The annual deductible is the amount a member must pay in a calendar year for certain services before we will cover those services at the copay or coinsurance in that calendar year.

When the deductible applies

The member will be charged the full costs of these services, until they reach their deductible:

- Ambulance services
- Durable medical equipment (outpatient)
- Emergency services
- Home health services
- Inpatient hospitalization
- Mental health services (inpatient/residential)
- Outpatient or same-day surgery
- Skilled nursing facility services
- Substance use disorder care (inpatient/residential)

*Some plans are different. Please check your benefit summary for details.

These plans are subject to exclusions and limitations. A complete list of the exclusions and limitations is included in the *Evidence of Coverage (EOC)*. To get a copy of the *EOC*, please sign in to your account.kp.org account or visit kp.org/plandocuments for sample *EOCs* by product.

When the deductible does not apply

The member will be charged the copay or coinsurance for these services, regardless of whether they have met their deductible.

- Office visits for primary, preventive, and prenatal and postpartum care and for routine eye exams
- Immunizations
- Hospice*

Out-of-pocket maximum on deductible plans

- Amounts paid toward the deductible count toward the out-of-pocket maximum.
- All copays and coinsurance apply to the out-of-pocket maximum.
- After meeting the out-of-pocket maximum, no further costs apply for the remainder of the calendar year.

Our high deductible health plans offer lower monthly premiums and are health savings account (HSA) qualified to help employees take charge of their own health care spending.

True to its name, our high deductible health plan is a health plan with a high deductible. These plans are unique from traditional and traditional deductible plans as most nonpreventive services apply to the deductible. Some examples of nonpreventive services include prescriptions, outpatient surgery, and emergency department visits.

Paired with HSA-qualified high deductible plans, HSA accounts are easy to administer and let your employees pay for current health expenses and save for future qualified expenses on a tax-free basis.* To learn more, please refer to the Health Payment Accounts section of this book.

What is an annual deductible?

The annual deductible is the amount a member must pay in a calendar year for certain services before we will cover those services at the copay or coinsurance in that calendar year.

*The tax references in this brochure relate to federal income tax only. Consult with your financial or tax adviser for more information about state income tax laws.

These plans are subject to exclusions and limitations. A complete list of the exclusions and limitations is included in the *Evidence of Coverage (EOC)*. To get a copy of the *EOC*, please sign in to your account.kp.org account or visit kp.org/plandocuments for sample *EOCs* by product.

Our health payment account options offer even more value by combining one of our health plans with a health reimbursement arrangement (HRA), health savings account (HSA), or flexible spending account (FSA). Administered through Kaiser Permanente, these accounts combine the convenience, flexibility, and cost-controlling features you want with the high-quality care your employees know and trust.

HRA Employees can use funds contributed by you to pay for qualified medical expenses on a tax-free basis. There are several HRA types available, from broad to more limited coverage, with options for point-of-service payment using our health payment card or convenient automatic reimbursement.

HSA When paired with an HSA-qualified high deductible health plan, these employee-owned accounts can be used to pay for qualified medical expenses, including services not covered under the Kaiser Permanente health plan. The money your employees contribute to their HSAs through payroll withholding isn't considered part of their wages, so they won't be taxed on it. They can also make post-tax contributions. Mutual fund investment options are available with HSAs as well.

FSA With a medical FSA, your employees make pretax contributions to an account they can use to pay for a wide range of qualified expenses such as doctor visits, prescription drugs, and lab tests, including services not covered under the Kaiser Permanente health plan. A dependent care FSA can be used for any qualified child and dependent care expense, including child care.¹

You get:

- Convenient account administration through our online portal
- Integrated health plan and account eligibility management
- Automated reports and notifications
- Comprehensive employee education and communication support
- Dedicated support from our specialists — from setup to daily management

Your employees get:

- Easy access to cost estimates, balances, claims, and more
- A simple way to pay and get reimbursements
- Dedicated phone and email support from our specialists

Administrative fees

HRA \$3.75
per account per month²

HSA \$3.25
per account per month³

FSA \$3.75
per account per month²

Account fees are per employee account per month. They'll be billed monthly to the employer, separate from the premium.^{4,5}

There are no additional setup fees for standard account types. For health payment cards, there is no annual fee and the first 2 pairs are given at no cost, with a \$10 fee for replacement or additional cards.

Helping your employees stay in control of their spending

Your employees can track their health payment account spending wherever they are with our free KP Balance Tracker mobile app. The app can be used to:

- Check account balances
- View account activity
- Submit claims for HRA and FSA reimbursement with photos of required paperwork

¹Refer to IRS Publication 502 for a list of qualified medical and dental expenses. Refer to IRS Publication 503 for a list of qualified child and dependent care expenses. ²There is no additional charge for stacked or paired HRA/FSA offerings. ³There is no fee for accounts with an average daily balance of \$2,000 or more for the month. This doesn't apply to an HSA paired with a limited-purpose FSA. ⁴Except for self-funded groups. ⁵For HSAs, employers may choose to have their employees billed for the administrative fees.

KP Plus Care Experience: Maximizing medical service visits and cost with KP Plus

Kaiser Permanente member, Jack, develops a severe case of the flu and visits a specialist who is out-of-network. To rule out pneumonia, the specialist orders two lab tests and directs Jack to an out-of-network lab. Jack is also given a prescription for a flu medication.

Below are two options a member could consider with a KP Plus plan.

OPTION 1: 100% out-of-network

Out-of-network specialist office visit:

- Member pays higher cost share
- Counts as 1 service toward the 10-service max

Out-of-network lab service (2 labs):

- Member pays higher cost share
- Counts as up to 2 services toward the 10-service max

Out-of-network pharmacy visit:

- Member pays higher cost share
- Counts as 1 fill toward the 5-fill max

Result: Higher member cost share and up to 3 of 10 services and 1 of 5 prescription fills used.

OPTION 2: Combined in- and out-of-network

Out-of-network specialist office visit:

- Member pays higher cost share
- Counts as 1 service toward the 10-service max

Member brings lab orders to Kaiser Permanente (2 labs):

- Member pays lower cost share
- Does not count against member's 10-service max

Member brings prescription to Kaiser Permanente:

- Member pays lower cost share
- Does not count against member's 5-fill max

Result: Lower member cost share and 1 of 10 services and 0 of 5 prescription fills used.

Helping your employees access high-quality health care doesn't have to end when they become eligible for Medicare. Thanks to our Senior Advantage Plan, eligible employees can access the same physicians, services, and facilities that our other members enjoy, along with their Medicare benefits in a single plan.

Kaiser Permanente Senior Advantage picks up where Medicare leaves off, combining original Medicare coverage and Kaiser Permanente traditional coverage — as well as features unique to Senior Advantage (such as an outside service area benefit and health club benefit) — into one comprehensive plan.

To enroll in Kaiser Permanente Group Senior Advantage

Plan members must obtain Medicare Parts A and B and must complete the Kaiser Permanente Senior Advantage enrollment form.

Employers with 1-19 total employees

Medicare-eligible employees and/or their dependents who enroll in Senior Advantage will receive Senior Advantage rates and benefits. (In most cases, Medicare is primary for groups with fewer than 20 employees.)

Employers with 20-50 total employees

Actively working Medicare-eligible employees and/or their dependents may remain on the active plan with active rates and benefits. They may enroll in the Senior Advantage plan and receive active rates and group Senior Advantage benefits. (Medicare is secondary for groups of 20 or more when the member is actively working.)

Different rules apply for those who are eligible for Medicare due to disability or end-stage renal disease. Contact your sales executive or account manager for more information.

These plans are subject to exclusions and limitations. A complete list of the exclusions and limitations is included in the *Evidence of Coverage (EOC)*. To get a copy of the EOC, please sign in to your account.kp.org account or visit kp.org/plandocuments for sample EOCs by product.
